RE: Notification of Public Hearing
2010 Urban Water Management Plan Update

Dear Planning Director:

Amador Water Agency ('Agency') is required to update and adopt an Urban Water Management Plan ('UWMP') and submit the completed plan to California Department of Water Resources every five years per California water code. The UWMP provides an overview of the Agency's water supply sources and usage, recycled water, and conservation programs. The UWMP is also part of the Agency's long-range planning to ensure water supply reliability for Agency customers.

State law requires that the water purveyor provide notice at least sixty days prior to all land use agencies of its intent to adopt the UWMP at a public meeting. This letter serves as the required notification.

The Agency's UWMP update is expected to be available for public review in July 2011 and will be posted on the Agency website at www.amadorwater.org. As per State law, a public review period followed by a public hearing will be held to provide an opportunity to comment on the Draft UWMP.

Please contact me with any questions or comments at (209) 257-5242.

Sincerely,

Erik M. Christeson, P.E.
Supervising Engineer
